Our Mission

*Save and restore the depot making it into Englewood's History Museum.

*Preserve and share Englewood's history.

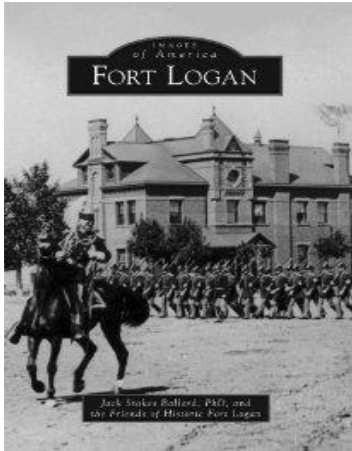

Do you have any jokes, stories or ideas to share? Please share them.

**Membership cards
Membership badges**

We are working on membership badges and cards and they will be ready in June. If your membership is about to expire, I will include a note with the newsletter.

RECENT EVENTS

Dr. Jack Ballard gave the history talk on Friday April 26. He shared the history of Fort Logan from World War I to the end of World War 2 when the base was closed in 1946.

UPCOMING EVENTS

May 6, Monday City Council meeting 7:30 PM at City Hall several people will speak about the depot and the groups seeking control of it. Two Englewood citizens will be chosen to participate in a committee with three outside experts. This group will discuss and recommend to Council whether the business or the Historic Society will be awarded the Depot.

May 8, Wednesday Board of Directors study session 6-7 PM, followed by the Society monthly meeting 7-8:30 PM in the Englewood Library. Both meetings are open to everyone.

May 11, Saturday or **May 25, Annual Board Meeting**-Day long workshop for revisions of by-laws. More details will be available at the monthly meeting.

May 23, Thursday-tentative date: The City-selected committee will interview the two groups seeking the depot. We do not know the exact time yet, but if you are interested, we will let you know. It will be during day.

May 31 Friday Sue Knous from Railroad Memories will share exciting and interesting railroad related items. Time: 3-5 PM, location: Englewood Public Library The event is free and refreshments will be served.

Buy a train ride on the Royal Gorge train and support the Englewood Historic Preservation Society. Check out the web site or call 720-254-1897 for details.

The Board of Directors

We, the board are continuing to work on our bylaws. There are still a number of changes to make. Are you as members interested in helping with this task?

We want your ideas and suggestions!

Speak with any board member at a meeting, or send an email with your ideas.

Christian and Jenny

Access Printing is a Family-owned business. We are dedicated to exceeding your expectations of a job well done. We utilize the finest state-of-the-art digital imaging and finishing equipment available today. Our ultimate goal is to provide you with the highest quality product in the shortest time possible and at a reasonable price.

We started out in 1992 in Saylorsburg, PA, the heart of the Pocono Mountains. We were "Desktop Publishers" at that time, doing graphic design and camera work for local printers. After a year in business, we added an Imagesetter and provided film from our files and the files that customers would bring to them.

In 1996, we had enough snow shoveling and moved the business to Fort Myers, FL,

where we continued to serve printers with graphic design and film.

In time, we evolved into the area's first "Digital Printer" by adding Xerox equipment to our lineup. In the years since 1996, we have added equipment using the philosophy that "no customer will be turned away".

In 2008, we opened regional service in the Denver area, offering the same quality products that we are known for in Fort Myers. In 2009, we moved to Denver.

Jenny and Chris are eager to meet with you and discuss your printing needs.

The Union Station model railroad group needs our help!

Due to the construction project at Union Station, the Platte Valley & Western is being forced to move out. The project is big and we're looking to see if any of your members would be available on the below Saturdays to potentially lend a hand in this process. We only have 3 - 4 weeks to get this all done.

. We anticipate it will take 3 - 4 weeks to complete the task however we need to ensure we are careful to attempt to save as much as possible.

We will need as many people as we can get. If you have friends/neighbors/etc. that are handy and willing to help, please let us know. Everyone must be over 18 as this is an active construction site. Safety equipment (hard soled boots, hardhats, gloves & eye protection) is required. There will be a waiver that you will sign. Other items (vests, etc.) that you may not own will be provided by MilanderWhite.

Here's the current timeline for the process. Each day will start as early as 7am. Hopefully we can be done by 2p or 3p as the job site closes down around 3p on Saturdays...

April 20th - Finalize the project plan & determine who is working which Saturdays.

April 27th - Front Yard & Mountain Sub - remove tortoise switch motors, turnouts & electronics. Also attempt to save the packing plant & stock yard complex in one piece. Also remove the items under the layout & any other switches/motors/electronics elsewhere on the layout.

May 4th -Granite/Gunlock Sub - Attempt to save Gunlock area, Granite area & the NG trestle.

May 11th - Arapahoe/Helix/FlatIrons - Attempt to save these areas.

Thanks,
Chris Rand President, Platte Valley & Western Model Railroad Club

If you have any members willing to help, please have them email me directly - chris.rand@pvwrr.org. I can give them

additional details.

Please consider how you and or your friends can help rescue this historic railroad!
